

Asset Report July 2021

Unless detailed below all assets appear to be in good order, and remain fit for purpose.

Asset	Location	Fault	Remarks
Dog litter bin	Village Hall	Damage to part of the “post fixing mechanism” (?) at the top of the bin.	Bin is still usable, and appears safe. However further investigation of the fault should be undertaken.
Street lights	LFR	Two not working	Due to be replaced by LED units
Old Notice Board	Bus Shelter	Wood work aging, back board warped and coming away. Doors missing.	Is still used by some locals for their notices, and the Clerk for some. Probably needs replacing.
Village Hall	Village Hall Fieldroof	Some unexplained issue with the	RVMHC is dealing with the issue, but without consultation with RPC.
Litter Bin	Village Hall	Anchoring is broken, and bin lifts from ground.	Bin is still usable, and it not a danger to the public at this time.

Some of bins could do with a clean on the outside.

Some dog bins (LFR, memorial) could do with the foliage being trimmed back to gain better access to the bin, both for the users, and MSDC refuse collectors.
